Index to Volume 178

Compiled by Linda English

PART I — SUBJECTS 3–15

PART II — CONTRIBUTORS 15–23

PART III — BOOK REVIEWS 23–24

Abbreviations: C, correspondence; suppl., supplement

PART I. SUBJECTS

Accidents and emergencies
Ambulance personnel and critical incidents. David A. Alexander and Susan Klein 76–81

Adolescence
Suicide in England and Wales 1970–1998. G. M. G. McClure 469–474

Advance directives
Legal pitfalls of psychiatric research. John Dawson *et al* 67–70

Affective disorders
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102
see also **Affective psychosis; Bipolar disorder; Depression; Mania; Seasonal affective disorder**

Affective psychosis
Predictors of later schizophrenia and affective psychosis. Mary Cannon *et al* 420–426

African–Caribbeans
In the UK, and British Whites. Comparison of outcome and treatment of psychosis. K. McKenzie *et al* 160–165
Stroke, vascular risk factors and depression in a UK Caribbean-born population. R. Stewart *et al* 23–28
Understanding the excess of psychosis in England. Mandy Sharpley *et al* (suppl. 40) s60–s68

Aggression *see* **Violence**

Agoraphobia
Self-exposure therapy for panic disorder with agoraphobia. L. M. Ito *et al* 331–336

Alcohol misuse
Molecular epidemiology of dependence: the interplay of genetic and environmental risk factors. A. C. Heath *et al* (suppl. 40) s33–s40
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102

Alzheimer's disease
Early-onset, in Scotland: environmental and familial factors. Lawrence J. Whalley (suppl. 40) s53–s59
Genetic risk: advising relatives. M. B. Liddell *et al* (*Review article*) 7–11
Information and education for carers. K. S. Shaji *et al* (C) 83–84. A. Marriott *et al* (*Authors' reply*) (C) 84
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102

Ambulance personnel
And critical incidents. David A. Alexander and Susan Klein 76–81

Amitriptyline
Still efficacious, but at what cost? Chris Thompson (*Editorial*) 99–100
v. the rest. Corrado Barbui and Matthew Hotopf (*Review article*) 129–144

Amnesia
Loss of memory and of sense of personal identity. Henry Rollin (*One hundred years ago*) 480

Anaesthetic agents
Cognitive functioning, and depressive symptomatology in the elderly. Marie-Laure Ancelin *et al* 360–366

Analyses
Analysis of data on outcome of depression. D. Anderson (C) 82. T. A. Tuma (*Author's reply*) (C) 82
Cerebral lateralisation and anatomical asymmetry in schizophrenia. Meta-analysis. Iris Sommer *et al* 344–351
Factors influencing the cost of caring for patients with severe psychotic illness. Sarah Byford *et al* 441–447
Is couple therapy better than antidepressant drugs? L. O. Ogundipe (C) 181. J. Leff and B. Everitt (*Authors' reply*) (C) 181–182
Neuroticism, life events and mental health. Jim van Os *et al* (suppl. 40) s72–s77
Quality of life in psychiatric patients: a factor analytical approach. Mirella Ruggeri *et al* 268–275
see also **Statistics**

Anorexia nervosa
Psychological therapies for adults. Chris Dare *et al* 216–221

Antidepressants
And suicide risk. J. C. Markowitz (C) 477
Effects of rapid tryptophan depletion on brain 5-HT_2 receptors. Lakshmi N. Yatham *et al* 448–453
How antidepressants work. Ian C. Reid and Caroline A. Stewart (*Review article*) 299–303
Is couple therapy better? L. O. Ogundipe (C) 181. J. Leff and B. Everitt (*Authors' reply*) (C) 181–182
Outcome and treatment of psychosis in UK African–Caribbeans and British Whites. K. McKenzie *et al* 160–165
Placebo response in depression. Gavin Andrews (*Editorial*) 192–194
Placebo response in trials. D. L. Zimbroff (C) 573–574
Quality of life of patients receiving medication in primary care: validation of the WHOQOL-100. Suzanne M. Skevington and Anne Wright 261–267
Recurrent unipolar depression requires prolonged treatment. A. H. Young (*Editorial*) 294–295
Remember the depressed vegetarian. S. Singsit and P. C. Naik (C) 184
Stanley Foundation Bipolar Network, 1. Robert M. Post *et al* (suppl. 41) s169–s176
Tryptophan depletion and its implications for psychiatry. Caroline Bell *et al* (*Review article*) 399–405
see also **Selective serotonin reuptake inhibitors;** *specific drugs*; **Tricyclics**

Antipsychotics
Use of antipsychotic drugs and lithium in mania. John Cookson (suppl. 41) s148–s156
see also specific drugs

Anxiety disorders
Accuracy of GP prognosis of depression and generalised anxiety. Rob H. S. van den Brink *et al* 18–22
see also **Panic disorder; Phobias**

Asylums
London County Asylum. Henry Rollin (*One hundred years ago*) 184
Scottish Royal Asylums. Henry Rollin (*One hundred years ago*) 280

Australia
Australians with mental illness who smoke. S. Lawn (C) 85
Prevalence, comorbidity, disability and service utilisation. Gavin Andrews *et al* 145–153
Prevalence of depression in old age. J. Snowdon (C) 476. A. Korten and S. Henderson (*Authors' reply*) (C) 476–477

Bayley Scales for Infant Development
Prenatal exposure to polychlorinated biphenyls and cognitive development. T. J. Lai *et al* (suppl. 40) s49–s52

Beck Depression Inventory
Validation of the WHOQOL-100. Suzanne M. Skevington and Anne Wright 261–267

Benzodiazepines
Chronic use in general practice patients with depression. Frans G. Zitman and Jaap E. Couvée 317–324
Diazepam in the treatment of GHB dependence. G. Addolorato *et al* (C) 183
Evaluating use following bereavement. James Warner *et al* 36–41

Bereavement
Evaluating the use of benzodiazepines. James Warner *et al* 36–41

Bereavement Phenomenology Questionnaire
Evaluating the use of benzodiazepines following bereavement. James Warner *et al* 36–41

Bipolar Affective Disorder: Lithium Anticonvulsant Evaluation (BALANCE) study
Clinical uncertainty in bipolar disorder. John Geddes and Guy Goodwin (suppl. 41) s191–s194

Bipolar disorder
Cerebral white matter lesions: relationship to outcome. P. Brian Moore *et al* 172–176
First European Stanley Foundation Bipolar Symposium. I. N. Ferrier and A. H. Young (eds) (suppl. 41) s103–s194
Clinical uncertainty in bipolar disorder. John Geddes and Guy Goodwin s191–s194
Cognitive therapy as an adjunct to medication in bipolar disorder. Jan Scott s164–s168
Evolving methodologies in bipolar disorder maintenance research. Joseph R. Calabrese *et al* s157–s163
Genetic studies of bipolar affective disorder in large families. Douglas H. R. Blackwood *et al* s134–s136
Lithium maintenance treatment in bipolar disorders. Leonardo Tondo *et al* s184–s190
Molecular and cellular mechanisms of action of mood stabilisers. Husseini K. Manji *et al* s107–s119
Molecular genetics of bipolar disorder. Nick Craddock and Ian Jones s128–s133
Neuroanatomical studies on bipolar disorder. Bruno Baumann and Bernhard Bogerts s142–s147
Neuropsychology of bipolar disorder. F. C. Murphy and B. J. Sahakian s120–s127
SAGE in the frontal cortex of bipolar disorder patients. Yeping Sun *et al* s137–s141
Stanley Foundation Bipolar Network, 1. Robert M. Post *et al* s169–s176
Stanley Foundation Bipolar Network, 2. Ralph W. Kupka *et al* s177–s183
The search for the wandering thymostat. I. Nicol Ferrier *et al* (*Editorial*) s103–s106
Use of antipsychotic drugs and lithium in mania. John Cookson s148–s156

Birth complications *see* **Obstetric complications**

Black people
Over-representation in secure psychiatric facilities. K. Bhui (C) 575
Survey of patients in medium secure psychiatric care. Paul Lelliott *et al* 62–66
see also **African–Caribbeans**

Books
Book reviews in the electronic age. A. Thompsell (C) 277. A. Gray and S. Lamerton (C) 277
Books received 584
Classic text still accessible. A. J. Warren (C) 479
Reading about psychiatric stigma. Peter Byrne 281–284
Ten books. Chosen by David Goldberg 88–91

Borderline IQ
Intellectual functioning and outcome in severe psychotic illness. A. Hassiotis *et al* 166–171

Brain
Cerebral lateralisation and anatomical asymmetry in schizophrenia. Iris Sommer *et al* 344–351
Cerebral white matter lesions in bipolar affective disorder. P. Brian Moore *et al* 172–176
Cognitive deficits in depression. Marie-Paule Austin *et al* (*Review article*) 200–206
Effects of rapid tryptophan depletion on 5-HT_2 receptors. Lakshmi N. Yatham *et al* 448–453
How antidepressants work. Ian C. Reid and Caroline A. Stewart (*Review article*) 299–303
Neuroanatomical studies on bipolar disorder. Bruno Baumann and Bernhard Bogerts (suppl. 41) s142–s147
SAGE in the frontal cortex of bipolar disorder patients. Yeping Sun *et al* (suppl. 41) s137–s141
Schizophrenia and the frontal lobes. J. Robin Highley *et al* 337–343
Structural abnormalities associated with deletion at chromosome 22q11. Therese van Amelsvoort *et al* 412–419

Breast-feeding
And schizophrenia. T. Mukherjee and V. Galanis (C) 82–83. S. J. Leask *et al* (*Authors' reply*) (C) 83

Britain
Income inequality and the prevalence of common mental disorders. Scott Weich *et al* 222–227
see also **England; Scotland; Wales**

British Whites
And UK African–Caribbeans. Outcome and treatment of psychosis. K. McKenzie *et al* 160–165

Bruxism
Citalopram-induced. M. E. J. Wise (C) 182

Buspirone
Citalopram-induced bruxism. M. E. J. Wise (C) 182

Cannabinoids
Pharmacology and effects of cannabis. C. Heather Ashton 101–106
Therapeutic aspects of cannabis and cannabinoids. Philip Robson 107–115

Cannabis
And cannabinoids. Therapeutic aspects. Philip Robson 107–115

And health. Michael Farrell and Bruce Ritson (*Editorial*) 98
Evaluating alternative regimes. Robert MacCoun and Peter Reuter 123–128
Pharmacology and effects. C. Heather Ashton 101–106
Psychiatric effects. Andrew Johns 116–122
Regimes. W. de Zwart and M. van Laar (C) 574–575

Cardiff Depression Study
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552

Cardiopulmonary resuscitation
Whose consent is it anyway? A. Spencer *et al* (C) 177–178

Carers
Effects of schizophrenia on patients' relatives. R. G. McCreadie (C) 575
Information and education in Alzheimer's disease. K. S. Shaji *et al* (C) 83–84. A. Marriott *et al* (*Authors' reply*) (C) 84
Whose consent is it anyway? A. Spencer *et al* (C) 177–178

Case management
Factors influencing the cost of caring for patients with severe psychotic illness. Sarah Byford *et al* 441–447
Intellectual functioning and outcome in severe psychotic illness. A. Hassiotis *et al* 166–171
Suicidal behaviour in psychosis. Elizabeth Walsh *et al* 255–260
What constitutes intensive treatment? D. Dodwell (C) 279. T. Burns *et al* (*Authors' reply*) (C) 279–280

Cerebral lateralisation
And anatomical asymmetry in schizophrenia. Iris Sommer *et al* 344–351

Childhood
Effect of prenatal exposure to polychlorinated biphenyls on cognitive development. T. J. Lai *et al* (suppl. 40) s49–s52
Endophenotypes and child psychiatry. David H. Skuse (*Editorial*) 395–396
Predictors of later schizophrenia and affective psychosis. Mary Cannon *et al* 420–426
Suicide in England and Wales 1970–1998. G. M. G. McClure 469–474
The role of consanguinity in etiology. Henry Rollin (*One hundred years ago*) 381

China
Natural course of schizophrenia: 2-year follow-up study in a rural community. Maosheng Ran *et al* 154–158. Invited commentary. John Cooper 159
Soviet-style psychiatry is alive and well in the People's Republic. D. Lyons (C) 380–381

Chinese
Cross-cultural implementation of a Chinese version of SCAN. A. T. A. Cheng *et al* (*Preliminary report*) 567–572

Chromosome 22q11
Structural brain abnormalities associated with deletion. Therese van Amelsvoort *et al* 412–419

Citalopram
Induced bruxism. M. E. J. Wise (C) 182
Prophylactic effect in unipolar, recurrent depression. B. Hochstrasser *et al* 304–310

Clients
Patients and clients. P. Calloway *et al* (C) 276. Editor's response 276

Clinical Interview Schedule – Revised
Common mental disorders in Santiago, Chile. Ricardo Araya *et al* 228–233

Clozapine
Reintroduction after diagnosis of lymphoma. J. Hundertmark and P. Campbell (C) 576

Cognitive abilities
Genetics, environment and cognitive abilities. Robert Plomin and Ian Craig (suppl. 40) s41–s48
Neuroticism, life events and mental health. Jim van Os *et al* (suppl. 40) s72–s77

Cognitive–behavioural therapy
Techniques in practice. M. Slade (C) 180. D. Turkington and D. G. Kingdon (*Authors' reply*) (C) 180

Cognitive development
Effect of prenatal exposure to polychlorinated biphenyls. T. J. Lai *et al* (suppl. 40) s49–s52

Cognitive impairment
Cognitive deficits in depression. Marie-Paule Austin *et al* (*Review article*) 200–206
Neuropsychology of bipolar disorder. F. C. Murphy and B. J. Sahakian (suppl. 41) s120–s127
Postoperative cognitive decline in the elderly. Marie-Laure Ancelin *et al* 360–366
see also **Dementia**

Cognitive therapy
And social functioning in chronic depression. S. Ito *et al* (C) 477. J. Scott (*Author's reply*) (C) 477–478
As an adjunct to medication in bipolar disorder. Jan Scott (suppl. 41) s164–s168
In schizophrenia. P. J. McKenna (C) 379–380
No long-term benefit in acute psychosis. K. Marlowe (C) 380

Combat stress
Psychiatric battle casualties. Edgar Jones and Simon Wessely 242–247

Common mental disorders
Accuracy of GP prognosis of depression and generalised anxiety. Rob H. S. van den Brink *et al* 18–22
Income inequality and prevalence in Britain. Scott Weich *et al* 222–227
In Santiago, Chile. Ricardo Araya *et al* 228–233
In urban *v.* rural Pakistan. I. Mirza (C) 475. D. B. Mumford (*Author's reply*) (C) 475–476
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102
Vulnerability factors. David Goldberg (suppl. 40) s69–s71

Community care
Evidence-based psychotherapeutic interventions in schizophrenia. Graham Thornicroft and Ezra Susser (*Editorial*) 2–4
For people with mental disorders in developing countries. K. S. Jacob (*Editorial*) 296–298

Community mental health teams
Management in severe mental illness. Shaeda Simmonds *et al* (*Review article*) 497–502. Invited commentary. Frank Holloway 503–505
Psychodynamic thinking. K. Bhui (C) 478

Comorbidity
Overview of the Australian National Mental Health Survey. Gavin Andrews *et al* 145–153
Psychiatric and personality disorders in deliberate self-harm patients. Camilla Haw *et al* 48–54

Composite International Diagnostic Interview
Overview of the Australian National Mental Health Survey. Gavin Andrews *et al* 145–153

Compulsory out-patient care
Legal pitfalls of psychiatric research. John Dawson *et al* 67–70

Confidentiality
Concerns. J. Sandford *et al* (C) 177

Consanguinity
Role in the etiology of epilepsy, hysteria, idiocy, and imbecility. Henry Rollin (*One hundred years ago*) 381

Consent
Informed consent in psychiatric research. Teifion Davies (*Editorial*) 397–398
Whose consent is it anyway? A. Spencer *et al* (C) 177–178

Continuity of care
Wessex Recent In-Patient Suicide Study, 1. Elizabeth A. King *et al* 531–536

Corrigenda 280, 480, 577

Costs
Australians with mental illness who smoke. S. Lawn (C) 85
Community mental health team management in severe mental illness. Shaeda Simmonds *et al* (*Review article*) 497–502. Invited commentary. Frank Holloway 503–505
Factors influencing the cost of caring for patients with severe psychotic illness. Sarah Byford *et al* 441–447
Intellectual functioning and outcome in severe psychotic illness with intensive case management. A. Hassiotis *et al* 166–171

Couple therapy
Is couple therapy better than antidepressant drugs? L. O. Ogundipe (C) 181. J. Leff and B. Everitt (*Authors' reply*) (C) 181–182

Cultures
Cross-cultural implementation of a Chinese version of SCAN. A. T. A. Cheng *et al* (*Preliminary report*) 567–572

Czars
Appointed czars, elected presidents and windows of opportunity. John Cox (*President, Royal College of Psychiatrists*) (*Editorial*) 292–293

Deliberate self-harm
Penile self-mutilation. M. S. Bhatia and S. Arora (C) 86–87
Psychiatric and personality disorders in patients. Camilla Haw *et al* 48–54

Dementia
Whose consent is it anyway? A. Spencer *et al* (C) 177–178
see also **Alzheimer's disease**

Depression
Aetiology
Association of hypotension with positive and negative affect and depressive symptoms. Anthony F. Jorm 553–555
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552
Social class: a test of social causation and social selection models. Jennifer E. B. Ritsher *et al* (suppl. 40) s84–s90
Stroke, vascular risk factors and depression. R. Stewart *et al* 23–28
Vulnerability factors for common mental illnesses. David Goldberg (suppl. 40) s69–s71

Cognitive impairment
Cognitive deficits. Marie-Paule Austin *et al* (*Review article*) 200–206
Postoperative cognitive decline in the elderly. Marie-Laure Ancelin *et al* 360–366

Course and outcome
Accuracy of GP prognosis. Rob H. S. van den Brink *et al* 18–22
Analysis of data on outcome. D. Anderson (C) 82. T. A. Tuma (*Author's reply*) (C) 82
Influence of deprivation on prevalence and outcome in primary care. K. Ostler *et al* 12–17

Epidemiology
Community study in old age in Taiwan. Mian-Yoon Chong *et al* 29–35
Influence of deprivation on prevalence and outcome in primary care. K. Ostler *et al* 12–17
Prevalence in old age. J. Snowdon (C) 476. A. Korten and S. Henderson (*Authors' reply*) (C) 476–477
Psychiatric disorders in deliberate self-harm patients. Camilla Haw *et al* 48–54

Genetics
Neuroticism, life events and mental health. Jim van Os *et al* (suppl. 40) s72–s77
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552

Pathophysiology
Cognitive deficits. Possible implications for functional neuropathology. Marie-Paule Austin *et al* (*Review article*) 200–206
Decreased sensitivity of 5-HT_{1D} receptors in melancholic depression. Richard Whale *et al* 454–457
Effects of rapid tryptophan depletion on brain 5-HT_2 receptors. Lakshmi N. Yatham *et al* 448–453
How antidepressants work. Ian C. Reid and Caroline A. Stewart (*Review article*) 299–303
Tryptophan depletion and its implications for psychiatry. Caroline Bell *et al* (*Review article*) 399–405

Therapy
Chronic benzodiazepine use in general practice patients. Frans G. Zitman and Jaap E. Couvée 317–324
Cognitive therapy and social functioning in chronic depression. S. Ito *et al* (C) 477. J. Scott (*Author's reply*) (C) 477–478
Placebo response. Gavin Andrews (*Editorial*) 192–194
Recurrent unipolar depression requires prolonged treatment. A. H. Young (*Editorial*) 294–295
see also **Antidepressants**

Deprivation
And depression in primary care. K. Ostler *et al* 12–17
Common mental disorders in Santiago, Chile. Ricardo Araya *et al* 228–233
Income inequality and the prevalence of common mental disorders in Britain. Scott Weich *et al* 222–227

Developing countries
Community care for people with mental disorders. K. S. Jacob (*Editorial*) 296–298
International representation in psychiatric literature. Vikram Patel and Athula Sumathipala 406–409. Invited commentaries. Julian Leff; Andrew T. A. Cheng 410–411
Mortality and long-term course in schizophrenia with a poor 2-year course. Ramin Mojtabai *et al* 71–75
see also specific countries

Diazepam
Chronic benzodiazepine use in depression. Frans G. Zitman and Jaap E. Couvée 317–324
Evaluating the use of benzodiazepines following bereavement. James Warner *et al* 36–41
In the treatment of GHB dependence. G. Addolorato *et al* (C) 183

Disability
Overview of the Australian National Mental Health Survey. Gavin Andrews *et al* 145–153

DNA pooling
Genetics, environment and cognitive abilities: towards a genome scan for quantitative trait locus associations. Robert Plomin and Ian Craig (suppl. 40) s41–s48

Drug misuse *see* **Substance misuse**

Drugs
Psychotropic drugs and sudden death. S.-A. Chong (C) 179–180
Suicide rates, social factors and availability of lethal methods. Kurt Schapira *et al* 458–464
see also **Amitriptyline; Anaesthetic agents; Antidepressants; Antipsychotics; Benzodiazepines; Buspirone; Cannabinoids; Cannabis; Citalopram; Clozapine; Diazepam; Gabapentin; Gamma-hydroxybutyrate; Lamotrigine; Lithium; Methylphenidate; Mood stabilisers; Olanzapine; Omega-3 fatty acids; Placebo; Selective serotonin reuptake inhibitors; Sildenafil citrate; Topiramate; Tricyclics; Valproate; Venlafaxine; Zolmitriptan**

DSM–III–R
5-HT function and aggression in male offenders. M. Dolan *et al* 352–359

DSM–IV
Citalopram in prophylactic treatment of depression. B. Hochstrasser *et al* 304–310
Psychotic disorders in immigrants to The Netherlands. J.-P. Selten *et al* 367–372

Elderly
Analysis of data on outcome of depression. D. Anderson (C) 82. T. A. Tuma (*Author's reply*) (C) 82
Association of hypotension with positive and negative affect and depressive symptoms. Anthony F. Jorm 553–555
Community study of depression in Taiwan. Mian-Yoon Chong *et al* 29–35
Exposure to anaesthetic agents, cognitive functioning and depressive symptomatology. Marie-Laure Ancelin *et al* 360–366
Prevalence of depression in old age. J. Snowdon (C) 476. A. Korten and S. Henderson (*Authors' reply*) (C) 476–477
Whose consent is it anyway? A. Spencer *et al* (C) 177–178

Endophenotypes
And child psychiatry. David H. Skuse (*Editorial*) 395–396

England
And Wales. Suicide in children and adolescents, 1970–1998. G. M. G. McClure 469–474
Medium secure forensic psychiatry services. Comparison of seven health regions. Jeremy Coid *et al* 55–61
Self-killing in medieval England. Alice Seabourne and Gwen Seabourne 42–47
Understanding the excess of psychosis among the African–Caribbean population. Mandy Sharpley *et al* (suppl. 40) s60–s68
see also **Hampshire Depression Project; London; London County Asylum; Newcastle upon Tyne; Wessex Recent In-Patient Suicide Study**

Envirome *see under* **Epidemiology**

Epidemiology
Genome and envirome: their roles and interaction. A. T. A. Cheng and B. Cooper (eds) (suppl. 40) s1–s101
Early-onset Alzheimer's disease in Scotland. Lawrence J. Whalley s53–s59
Epidemiology: the influenza–schizophrenia theory. Povl Munk-Jørgensen and Henrik Ewald s30–s32
Genes, environment and schizophrenia. Ming T. Tsuang *et al* s18–s24
Genetics, environment and cognitive abilities. Robert Plomin and Ian Craig s41–s48
Introduction. Andrew T. A. Cheng and Brian Cooper s1–s2
Molecular epidemiology of alcohol dependence. A. C. Heath *et al* s33–s40
Nature, nurture and mental disorder. Brian Cooper s91–s102
Neuroticism, life events and mental health. Jim van Os *et al* s72–s77
Obstetric complications and schizophrenia. H. Kunugi *et al* s25–s29
Prenatal exposure to polychlorinated biphenyls and cognitive development. T. J. Lai *et al* s49–s52
Psychosis in the African–Caribbean population in England. Mandy Sharpley *et al* s60–s68
Social class and depression. Jennifer E. B. Ritsher *et al* s84–s90
Socio-economic status, birth risks and emotional and nervous conditions. Angela P. Fan and William W. Eaton s78–s83
The promise of psychiatric enviromics. James C. Anthony s8–s11
Towards a lifeline perspective. Steven Rose s3–s7
Understanding the roles of genome and envirome. Jenae M. Neiderhiser s12–s17
Vulnerability factors for common mental illnesses. David Goldberg s69–s71
see also under **Depression** *and* **Schizophrenia**

Epilepsy
Lowered seizure threshold on olanzapine. J. Woolley and S. Smith (C) 85–86
The role of consanguinity in etiology. Henry Rollin (*One hundred years ago*) 381

Erectile dysfunction
Mild to moderate. Efficacy and safety of sildenafil citrate. Ian Eardley *et al* 325–330

Ethics
Informed consent in psychiatric research. Teifion Davies (*Editorial*) 397–398

Ethnicity
Outcome and treatment of psychosis in UK African–Caribbeans and British Whites. K. McKenzie *et al* 160–165
Over-representation of Black people in secure psychiatric facilities. K. Bhui (C) 575
Psychosis in the African–Caribbean population in England. Mandy Sharpley *et al* (suppl. 40) s60–s68
Stroke, vascular risk factors and depression in a UK Caribbean-born population. R. Stewart *et al* 23–28
Survey of patients in medium secure psychiatric care. Paul Lelliott *et al* 62–66

Evidence-based psychiatry
A. Jha (C) 575–576
Clinical uncertainty in bipolar disorder. John Geddes and Guy Goodwin (suppl. 41) s191–s194
Implementation: whose responsibility? Stephen M. Lawrie *et al* (*Editorial*) 195–196
Psychotherapeutic interventions in the community care of schizophrenia. Graham Thornicroft and Ezra Susser (*Editorial*) 2–4

Evolution
And psychiatry. J. L. T. Birley (C) 178. P. Lucas (C) 178. W. Prothero (C) 178. R. T. Abed (*Author's reply*) (C) 179
Evolutionary psychology revisited. S. Rose and P. Lucas (C) 573
Evolutionary theory and psychiatry. A. Stevens and J. Price (C) 277–278

Exposure therapy *see* **Self-exposure therapy**

Eyre records
Self-killing in medieval England. Alice Seabourne and Gwen Seabourne 42–47

Families
Early-onset Alzheimer's disease in Scotland: environmental and familial factors. Lawrence J. Whalley (suppl. 40) s53–s59
Effects of schizophrenia on patients' relatives. R. G. McCreadie (C) 575
Genetic risk of Alzheimer's disease: advising relatives. M. B. Liddell *et al* (*Review article*) 7–11

Inter-generational longitudinal study of social class and depression. Jennifer E. B. Ritsher *et al* (suppl. 40) s84–s90
Relatives' contact with patients with psychosis. Kate Harvey *et al* 248–254
Whose consent is it anyway? A. Spencer *et al* (C) 177–178

Family therapy
Psychological therapies for adults with anorexia nervosa. Chris Dare *et al* 216–221

First European Stanley Foundation Bipolar Symposium (suppl. 41) *see under* **Bipolar disorder**

Forensic psychiatry
5-HT function and impulsivity and aggression in male offenders with personality disorders. M. Dolan *et al* 352–359
Medium secure care and research. A. Maden (*Editorial*) 5–6
Medium secure services. Comparison of seven English health regions. Jeremy Coid *et al* 55–61
Over-representation of Black people in secure psychiatric facilities. K. Bhui (C) 575
Survey of patients in medium secure psychiatric care. Paul Lelliott *et al* 62–66

France
Psychiatric features of vCJD similar in France and UK. A. Dervaux *et al* (C) 276

Frontal lobes
SAGE in the frontal cortex of bipolar disorder patients. Yeping Sun *et al* (suppl. 41) s137–s141
Schizophrenia and the frontal lobes. J. Robin Highley *et al* 337–343

Gabapentin
Stanley Foundation Bipolar Network, 2. Ralph W. Kupka *et al* (suppl. 41) s177–s183

Gamma-hydroxybutyrate (GHB)
Diazepam in the treatment of dependence. G. Addolorato *et al* (C) 183

Gender differences
Schizophrenia and the frontal lobes. J. Robin Highley *et al* 337–343
Self-killing in medieval England. Alice Seabourne and Gwen Seabourne 42–47
Suicide rates, social factors and availability of lethal methods. Kurt Schapira *et al* 458–464
Wessex Recent In-Patient Suicide Study, 2. Elizabeth A. King *et al* 537–542

General cognitive ability (*g*)
Genetics, environment and cognitive abilities. Robert Plomin and Ian Craig (suppl. 40) s41–s48

General Health Questionnaire
Ambulance personnel and critical incidents. David A. Alexander and Susan Klein 76–81
Income inequality and the prevalence of common mental disorders. Scott Weich *et al* 222–227

Generalised anxiety disorder
Accuracy of GP prognosis. Rob H. S. van den Brink *et al* 18–22

General paralysis
In the Navy. Henry Rollin (*One hundred years ago*) 87

General practice *see* **Primary care**

Genetics
Endophenotypes and child psychiatry. David H. Skuse (*Editorial*) 395–396
Gene therapy for neurodegenerative diseases: fact or fiction? Janet E. Carter and Edward H. Schuchman (*Editorial*) 392–394
Molecular genetics of bipolar disorder. Nick Craddock and Ian Jones (suppl. 41) s128–s133
Olanzapine: concordant response in monozygotic twins with schizophrenia. I. Mata *et al* (C) 86
Risk of Alzheimer's disease: advising relatives. M. B. Liddell *et al* (*Review article*) 7–11
SAGE in the frontal cortex of bipolar disorder patients. Yeping Sun *et al* (suppl. 41) s137–s141
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552
Stigma and ineffective legislation. J. M. Clifford (C) 576
Studies of bipolar affective disorder in large families. Douglas H. R. Blackwood *et al* (suppl. 41) s134–s136

Geriatric Depression Scale
Stroke, vascular risk factors and depression. R. Stewart *et al* 23–28

Geriatric Mental State Schedule
Community study of depression in old age in Taiwan. Mian-Yoon Chong *et al* 29–35

GMS–AGECAT
Community study of depression in old age in Taiwan. Mian-Yoon Chong *et al* 29–35

Hamilton Rating Scale for Depression
Remission rates with venlafaxine or SSRIs. Michael E. Thase *et al* 234–241

Hampshire Depression Project
Deprivation and depression in primary care. K. Ostler *et al* 12–17

Handedness
Cerebral lateralisation and anatomical asymmetry in schizophrenia. Iris Sommer *et al* 344–351

Health
Cannabis and health. Michael Farrell and Bruce Ritson (*Editorial*) 98
Pharmacology and effects of cannabis. C. Heather Ashton 101–106

Health of the Nation Outcome Scales (HoNOS)
Value in assessing patient change in psychotherapy services. Kerry Audin *et al* 561–566

Highlights
Elizabeth Walsh 291, 391, 489
Mary Cannon 1, 97, 191

Hippocampus
How antidepressants work. Ian C. Reid and Caroline A. Stewart (*Review article*) 299–303

Hospital Anxiety and Depression Scale
Deprivation and depression in primary care. K. Ostler *et al* 12–17

Hospitals *see* **Asylums; In-patients**

Human rights abuses
Effects of the Truth and Reconciliation Commission in South Africa. Debra Kaminer *et al* 373–377
Soviet-style psychiatry is alive and well in the People's Republic. D. Lyons (C) 380–381

Hungary
Changes in suicide rates or changes in statistics. A. Marušič (C) 83

5-Hydroxytryptamine (5-HT) *see* **Serotonin**

Hypotension
Association with positive and negative affect and depressive symptoms. Anthony F. Jorm 553–555

Hysteria
The role of consanguinity in etiology. Henry Rollin (*One hundred years ago*) 381

ICD–10
Accuracy of GP prognosis. Rob H. S. van den Brink *et al* 18–22
Common mental disorders in Santiago. Ricardo Araya *et al* 228–233
Overview of the Australian National Mental Health Survey. Gavin Andrews *et al* 145–153
Psychiatric and personality disorders in deliberate self-harm patients. Camilla Haw *et al* 48–54

Immigrants
Incidence of psychotic disorders in The Netherlands. J.-P. Selten *et al* 367–372

Impulsivity
And aggression. Relationship with 5-HT function in offenders with personality disorders. M. Dolan *et al* 352–359

Income inequality
And the prevalence of common mental disorders in Britain. Scott Weich *et al* 222–227

Influenza
The influenza–schizophrenia theory. Povl Munk-Jørgensen and Henrik Ewald (suppl. 40) s30–s32

In-patients
Patterns and predictors of hospitalisation in first-episode psychosis. Attila Sipos *et al* 518–523
The keeping of lunatics in unlicensed houses. Henry Rollin (*One hundred years ago*) 577
Wessex Recent In-Patient Suicide Study, 1 and 2. Elizabeth A. King *et al* 531–536, 537–542

Insight
What came first: dimensions or categories? D. Marazziti (C) 478–479

Instruments *see* **Scales**

Intensive case management *see* **Case management**

Japan
Seasonality of suicides. T. Sato (C) 183

Journals
International representation in psychiatric literature. Vikram Patel and Athula Sumathipala 406–409. Invited commentaries. Julian Leff; Andrew T. A. Cheng 410–411

Lamotrigine
Stanley Foundation Bipolar Network, 2. Ralph W. Kupka *et al* (suppl. 41) s177–s183

Lancashire Quality of Life Profile
Subjective and objective dimensions of quality of life in psychiatric patients. Mirella Ruggeri *et al* 268–275

Language
Cerebral lateralisation and anatomical asymmetry in schizophrenia. Iris Sommer *et al* 344–351
Cross-cultural implementation of a Chinese version of SCAN. A. T. A. Cheng *et al* (*Preliminary report*) 567–572
Patients and clients. P. Calloway *et al* (C) 276. Editor's response 276

Learning disabilities
Brain abnormalities and deletion at chromosome 22q11. Therese van Amelsvoort *et al* 412–419
Intellectual functioning and outcome in severe psychotic illness. A. Hassiotis *et al* 166–171
The role of consanguinity in etiology. Henry Rollin (*One hundred years ago*) 381

Legal issues
Concerns over confidentiality. J. Sandford *et al* (C) 177
Evaluating alternative cannabis regimes. Robert MacCoun and Peter Reuter 123–128
Legal pitfalls of psychiatric research. John Dawson *et al* 67–70
Stigma and ineffective legislation. J. M. Clifford (C) 576

Life events
Community study of depression in old age in Taiwan. Mian-Yoon Chong *et al* 29–35
Neuroticism, life events and mental health. Jim van Os *et al* (suppl. 40) s72–s77
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552
Vulnerability factors for common mental illnesses. David Goldberg (suppl. 40) s69–s71

Life Events and Difficulties Schedule
Community study of depression in old age in Taiwan. Mian-Yoon Chong *et al* 29–35

Light therapy
For seasonal affective disorder in primary care. Samantha M. Wileman *et al* 311–316

Lithium
Clinical uncertainty in bipolar disorder. John Geddes and Guy Goodwin (suppl. 41) s191–s194
Maintenance treatment in types I and II bipolar disorders. Leonardo Tondo *et al* (suppl. 41) s184–s190
Molecular and cellular mechanisms of action of mood stabilisers. Husseini K. Manji *et al* (suppl. 41) s107–s119
Use of antipsychotic drugs and lithium in mania. John Cookson (suppl. 41) s148–s156

London
Medium secure care and research in forensic psychiatry. A. Maden (*Editorial*) 5–6
Patients from an inner-London health authority in medium secure care. Paul Lelliott *et al* 62–66

London County Asylum
Annual Report for 1899. Henry Rollin (*One hundred years ago*) 184

Lymphoma
Reintroduction of clozapine after diagnosis. J. Hundertmark and P. Campbell (C) 576

Magnetic resonance imaging
Brain abnormalities and deletion at chromosome 22q11. Therese van Amelsvoort *et al* 412–419
Cerebral white matter lesions in bipolar affective disorder. P. Brian Moore *et al* 172–176

Males
5-HT function and impulsivity and aggression in offenders with personality disorders. M. Dolan *et al* 352–359
Penile self-mutilation. M. S. Bhatia and S. Arora (C) 86–87
Sildenafil citrate in the treatment of mild to moderate erectile dysfunction. Ian Eardley *et al* 325–330
Suicide in children and adolescents in England and Wales 1970–1998. G. M. G. McClure 469–474
see also **Gender differences**

Mania
Psychosis in the African–Caribbean population in England. Mandy Sharpley *et al* (suppl. 40) s60–s68
Use of antipsychotic drugs and lithium. John Cookson (suppl. 41) s148–s156

Medium secure care
And research in forensic psychiatry. A. Maden (*Editorial*) 5–6
Comparison of seven English health regions. Jeremy Coid *et al* 55–61
Over-representation of Black people. K. Bhui (C) 575
Survey of patients from an inner-London health authority. Paul Lelliott *et al* 62–66

Melancholic depression
Decreased sensitivity of 5-HT_{1D} receptors. Richard Whale *et al* 454–457

Memory
Loss of memory and of sense of personal identity. Henry Rollin (*One hundred years ago*) 480

Mental disorders
Australians with mental illness who smoke. S. Lawn (C) 85
Common mental disorders in Santiago, Chile. Ricardo Araya *et al* 228–233
Common mental disorders in urban *v.* rural Pakistan. I. Mirza (C) 475. D. B. Mumford (*Author's reply*) (C) 475–476
Community care for people in developing countries. K. S. Jacob (*Editorial*) 296–298
Community mental health team management in severe mental illness. Shaeda Simmonds *et al* (*Review article*) 497–502. Invited commentary. Frank Holloway 503–505
Effects of the Truth and Reconciliation Commission in South Africa. Debra Kaminer *et al* 373–377
Income inequality and the prevalence of common mental disorders in Britain. Scott Weich *et al* 222–227

In deliberate self-harm patients. Camilla Haw *et al* 48–54
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102
Psychiatric effects of cannabis. Andrew Johns 116–122
Socio-economic status, birth risks and emotional and nervous conditions. Angela P. Fan and William W. Eaton (suppl. 40) s78–s83

Placebo response in depression: bane of research, boon to therapy. Gavin Andrews (*Editorial*) 192–194

Reviews
Book reviews in the electronic age. A. Thompsell (C) 277. A. Gray and S. Lamerton (C) 277

Risk assessment
Practical application of structured risk assessment. A. Maden (C) 479
Violence risk prediction in practice. G. Szmukler (C) 84–85

Royal College of Psychiatrists
Appointed czars, elected presidents and windows of opportunity. John Cox (*President, Royal College of Psychiatrists*) (*Editorial*) 292–293

Rural populations
Common mental disorders in urban *v.* rural Pakistan. I. Mirza (C) 475. D. B. Mumford (*Author's reply*) (C) 475–476
Natural course of schizophrenia. Maosheng Ran *et al* 154–158. Invited commentary. John Cooper 159

Santiago, Chile
Common mental disorders. Ricardo Araya *et al* 228–233

Scales
Bayley Scales for Infant Development (suppl. 40) s49–s52
Geriatric Depression Scale 23–28
Hamilton Rating Scale for Depression 234–241
Health of the Nation Outcome Scales (HoNOS) 561–566
Hospital Anxiety and Depression Scale 12–17
Montgomery–Åsberg Depression Rating Scale 304–310
Practical application of structured risk assessment. A. Maden (C) 479
Schizophrenia Quality of Life Scale (C) 181, (*Authors' reply*) (C) 181
Structured Interview Guide for Hamilton Depression Rating Scale – Seasonal Affective Disorder Version (SIGH–SAD) 311–316
Violence risk prediction in practice. G. Szmukler (C) 84–85
see also **Beck Depression Inventory; Composite International Diagnostic Interview; Lancashire Quality of Life Profile; National Institute of Mental Health Life Chart Method; Questionnaires; Raven's Coloured Progressive Matrices; Raven's Standardised Progressive Matrices; Schedules; Special Hospital Assessment of Personality and Socialisation; Stanford–Binet IQ Test; WHOQOL-100**

Schedules
Clinical Interview Schedule – Revised 228–233
Geriatric Mental State Schedule 29–35
Life Events and Difficulties Schedule 29–35
Schedule for Affective Disorders and Schizophrenia (suppl. 40) s84–s90
Schedules for Clinical Assessment in Neuropsychiatry (SCAN) (*Preliminary report*) 567–572

Schizophrenia
Aetiology
Breast-feeding and schizophrenia. T. Mukherjee and V. Galanis (C) 82–83. S. J. Leask *et al* (*Authors' reply*) (C) 83
Genes, environment and schizophrenia. Ming T. Tsuang *et al* (suppl. 40) s18–s24
Nature, nurture and mental disorder. Brian Cooper (suppl. 40) s91–s102
Obstetric complications. H. Kunugi *et al* (suppl. 40) s25–s29
The influenza–schizophrenia theory. Povl Munk-Jørgensen and Henrik Ewald (suppl. 40) s30–s32

Childhood antecedents
Predictors of later schizophrenia and affective psychosis. Mary Cannon *et al* 420–426

Course and outcome
Mortality and long-term course in schizophrenia with a poor 2-year course. Ramin Mojtabai *et al* 71–75
Natural course: 2-year follow-up study in a rural Chinese community. Maosheng Ran *et al* 154–158. Invited commentary. John Cooper 159
Recovery: a 15- and 25-year international follow-up study. G. Harrison *et al* 506–517

Epidemiology
Psychosis in the African–Caribbean population in England. Mandy Sharpley *et al* (suppl. 40) s60–s68
Psychotic disorders in immigrants to The Netherlands. J.-P. Selten *et al* 367–372
The influenza–schizophrenia theory. Povl Munk-Jørgensen and Henrik Ewald (suppl. 40) s30–s32

Families
Effects on patients' relatives. R. G. McCreadie (C) 575

Genetics
Genes, environment and schizophrenia. Ming T. Tsuang *et al* (suppl. 40) s18–s24
Neurodevelopmental indices and the development of psychotic symptoms in high-risk subjects. Stephen M. Lawrie *et al* 524–530
Olanzapine: concordant response in monozygotic twins. I. Mata *et al* (C) 86

Neurodevelopment
Genes, environment and schizophrenia. Ming T. Tsuang *et al* (suppl. 40) s18–s24
Neurodevelopmental indices and the development of psychotic symptoms in high-risk subjects. Stephen M. Lawrie *et al* 524–530
Obstetric complications and schizophrenia. H. Kunugi *et al* (suppl. 40) s25–s29

Pathology
Handedness, language lateralisation and anatomical asymmetry. Iris Sommer *et al* 344–351
The frontal lobes. Post-mortem stereological study of tissue volume. J. Robin Highley *et al* 337–343

Quality of life
Assessment. M. P. Klijnsma (C) 181. D. Wild and G. Wilkinson (*Authors' reply*) (C) 181

Therapy
Cognitive therapy. P. J. McKenna (C) 379–380
Evidence-based psychotherapeutic interventions in community care. Graham Thornicroft and Ezra Susser (*Editorial*) 2–4
Long-term psychotherapeutic relationships. C. Brogan (C) 478
Olanzapine: concordant response in monozygotic twins. I. Mata *et al* (C) 86
Psychodynamic thinking and the community mental health team. K. Bhui (C) 478

Schizophrenia Quality of Life Scale
Assessing quality of life in schizophrenia. M. P. Klijnsma (C) 181. D. Wild and G. Wilkinson (*Authors' reply*) (C) 181

Schizotaxia
Genes, environment and schizophrenia. Ming T. Tsuang *et al* (suppl. 40) s18–s24

Scotland
Early-onset Alzheimer's disease: environmental and familial factors. Lawrence J. Whalley (suppl. 40) s53–s59
Role of psychiatrists in the prediction and prevention of suicide. John M. Eagles *et al* (*Editorial*) 494–496
Scottish Royal Asylums. Henry Rollin (*One hundred years ago*) 280

Seasonality
Light therapy for seasonal affective disorder in primary care. Samantha M. Wileman *et al* 311–316
Of suicides. T. Sato (C) 183. S. Smith (C) 183–184
Variation in suicides: hidden not vanished. C. A. J. van Houwelingen and D. G. M. Beersma (C) 380

Seizures
Lowered threshold on olanzapine. J. Woolley and S. Smith (C) 85–86

Selective serotonin reuptake inhibitors (SSRIs)
Amitriptyline *v.* the rest. Corrado Barbui and Matthew Hotopf (*Review article*) 129–144
Antidepressants and suicide risk. J. C. Markowitz (C) 477
Chronic benzodiazepine use in depression: an evaluation of controlled treatment and taper-off. Frans G. Zitman and Jaap E. Couvée 317–324
Decreased sensitivity of 5-HT_{1D} receptors in melancholic depression. Richard Whale *et al* 454–457
Remission rates during treatment with venlafaxine or SSRIs. Michael E. Thase *et al* 234–241
see also **Citalopram**

Self-exposure therapy
Follow-up of self- and clinician-accompanied exposure for phobia/panic disorders. Je-Min Park *et al* 543–548
For panic disorder with agoraphobia. L. M. Ito *et al* 331–336

Self-mutilation
Penile self-mutilation. M. S. Bhatia and S. Arora (C) 86–87

Sensation-seeking
Life events, and depression. Anne Farmer *et al* 549–552

Sensation-Seeking Questionnaire
Sensation-seeking, life events and depression. Anne Farmer *et al* 549–552

Serial analysis of gene expression (SAGE)
In the frontal cortex of bipolar disorder patients. Yeping Sun *et al* (suppl. 41) s137–s141

Serotonin
5-HT function and impulsivity and aggression in offenders with personality disorders. M. Dolan *et al* 352–359
Decreased sensitivity of 5-HT_{1D} receptors in melancholic depression. Richard Whale *et al* 454–457
Effects of rapid tryptophan depletion on brain 5-HT_2 receptors. Lakshmi N. Yatham *et al* 448–453
Tryptophan depletion and its implications for psychiatry. Caroline Bell *et al* (*Review article*) 399–405

Sex differences *see* **Gender differences**

Sexual dysfunction
Sildenafil citrate in the treatment of mild to moderate erectile dysfunction. Ian Eardley *et al* 325–330

Signal transduction pathways
Molecular and cellular mechanisms of action of mood stabilisers. Husseini K. Manji *et al* (suppl. 41) s107–s119

Sildenafil citrate
Efficacy and safety in the treatment of mild to moderate erectile dysfunction. Ian Eardley *et al* 325–330

Smoking
Australians with mental illness who smoke. S. Lawn (C) 85

Social environment *see* **Epidemiology, *Genome and envirome: their roles and interaction* (suppl. 40)**

Social functioning
Cognitive therapy in chronic depression. S. Ito *et al* (C) 477. J. Scott (*Author's reply*) (C) 477–478

Socio-demographic factors
Common mental disorders in Santiago, Chile. Ricardo Araya *et al* 228–233
Community study of depression in old age in Taiwan. Mian-Yoon Chong *et al* 29–35
Suicide rates, and availability of lethal methods. Kurt Schapira *et al* 458–464

Socio-economic factors
Common mental disorders in urban *v.* rural Pakistan. I. Mirza (C) 475. D. B. Mumford (*Author's reply*) (C) 475–476
Deprivation and depression in primary care. K. Ostler *et al* 12–17
Income inequality and the prevalence of common mental disorders in Britain. Scott Weich *et al* 222–227
Social class and depression: a test of social causation and social selection models. Jennifer E. B. Ritsher *et al* (suppl. 40) s84–s90
Socio-economic status, birth risks and emotional and nervous conditions. Angela P. Fan and William W. Eaton (suppl. 40) s78–s83

South Africa
Effects of the Truth and Reconciliation Commission. Debra Kaminer *et al* 373–377
Focus on psychiatry. Robin Emsley 382–386

South Verona Outcome Project 4
Subjective and objective dimensions of quality of life in psychiatric patients. Mirella Ruggeri *et al* 268–275

Special Hospital Assessment of Personality and Socialisation (SHAPS)
5-HT function and aggression in male offenders. M. Dolan *et al* 352–359

Stanford–Binet IQ Test
Prenatal exposure to polychlorinated biphenyls and cognitive development. T. J. Lai *et al* (suppl. 40) s49–s52

Stanley Foundation Bipolar Network
1. Rationale and Methods. Robert M. Post *et al* (suppl. 41) s169–s176
2. Preliminary summary of demographics, course of illness and response to novel treatments. Ralph W. Kupka *et al* (suppl. 41) s177–s183

Statistics
Genetic studies of bipolar affective disorder in large families. Douglas H. R. Blackwood *et al* (suppl. 41) s134–s136
No long-term benefit for cognitive therapy in acute psychosis. K. Marlowe (C) 380
Violence risk prediction in practice. G. Szmukler (C) 84–85
